

GEAPS Recognizes Safety Award Winners

The GEAPS Safety Awards honor facilities within the grain handling and processing industries that demonstrate exceptional commitment to workplace safety. Facilities in bold completed the year without a single recordable incident. The number after the facility name is the number of years facility has received the award.

"GEAPS Safety Awards program dates back nearly a half century and is a testament to the value of GEAPS membership," said GEAPS Executive Director John Caupert. "With GEAPS Training and Education programming, webinars, a dedicated safety track at GEAPS Exchange, involvement in Stand Up for Grain Safety, chapter events and so many other ways, our members have access to the best PPE out there — education and awareness."

Congratulations to this year's recipients and these facilities who, year after year, demonstrate a serious commitment to safety!

Special congratulations to this year's facility with the most consecutive hours of no incidents:
