

GEAPS VOLUME BLOCK DISCOUNT PROGRAM

GEAPS has created a program to save your company thousands of dollars while providing excellent education and training to employees. The volume discount program is designed to give companies a cost-effective way to train large groups of employees through the GEAPS/Kansas State University Distance Education Program by purchasing blocks of registrations.

OVER 5,000 DISTANCE EDUCATION COURSE GRADUATES

FOUR BLOCKS AVAILABLE:

- **A BLOCK: 10-29 REGISTRATIONS**
5 percent off the member rate
- **B BLOCK : 30-49 REGISTRATIONS**
10 percent off the member rate
- **C BLOCK : 50-99 REGISTRATIONS**
15 percent off the member rate
- **D BLOCK : 100+ REGISTRATIONS**
20 percent off the member rate

When purchasing volume blocks, neither the purchaser nor the participant needs to be a GEAPS member. Volume block registrations are good for three years, even if the price for courses goes up.

If your company needs to train a large group of employees with a course that is not scheduled at a convenient time, courses are also available on-demand. To schedule an on-demand course, your company must register at least 10 participants, and courses must be scheduled at least three weeks in advance.

ABOUT THE GEAPS/K-STATE PROGRAM

The GEAPS/Kansas State University Distance Education Program courses are a great resource to help strengthen the skills of today's workforce and grow the industry-specific knowledge of tomorrow's grain industry professionals. Courses take place completely online, and should take 10 hours to complete.
